AI delivery capacity Requirement

IDARE®

Team

- Business - SMEs /SDEs
- Data Scientists
- Data Engineers
- User Interface Frontend Engineer
- Solution Architect
- DevOps-cloud engineer

Infrastructure

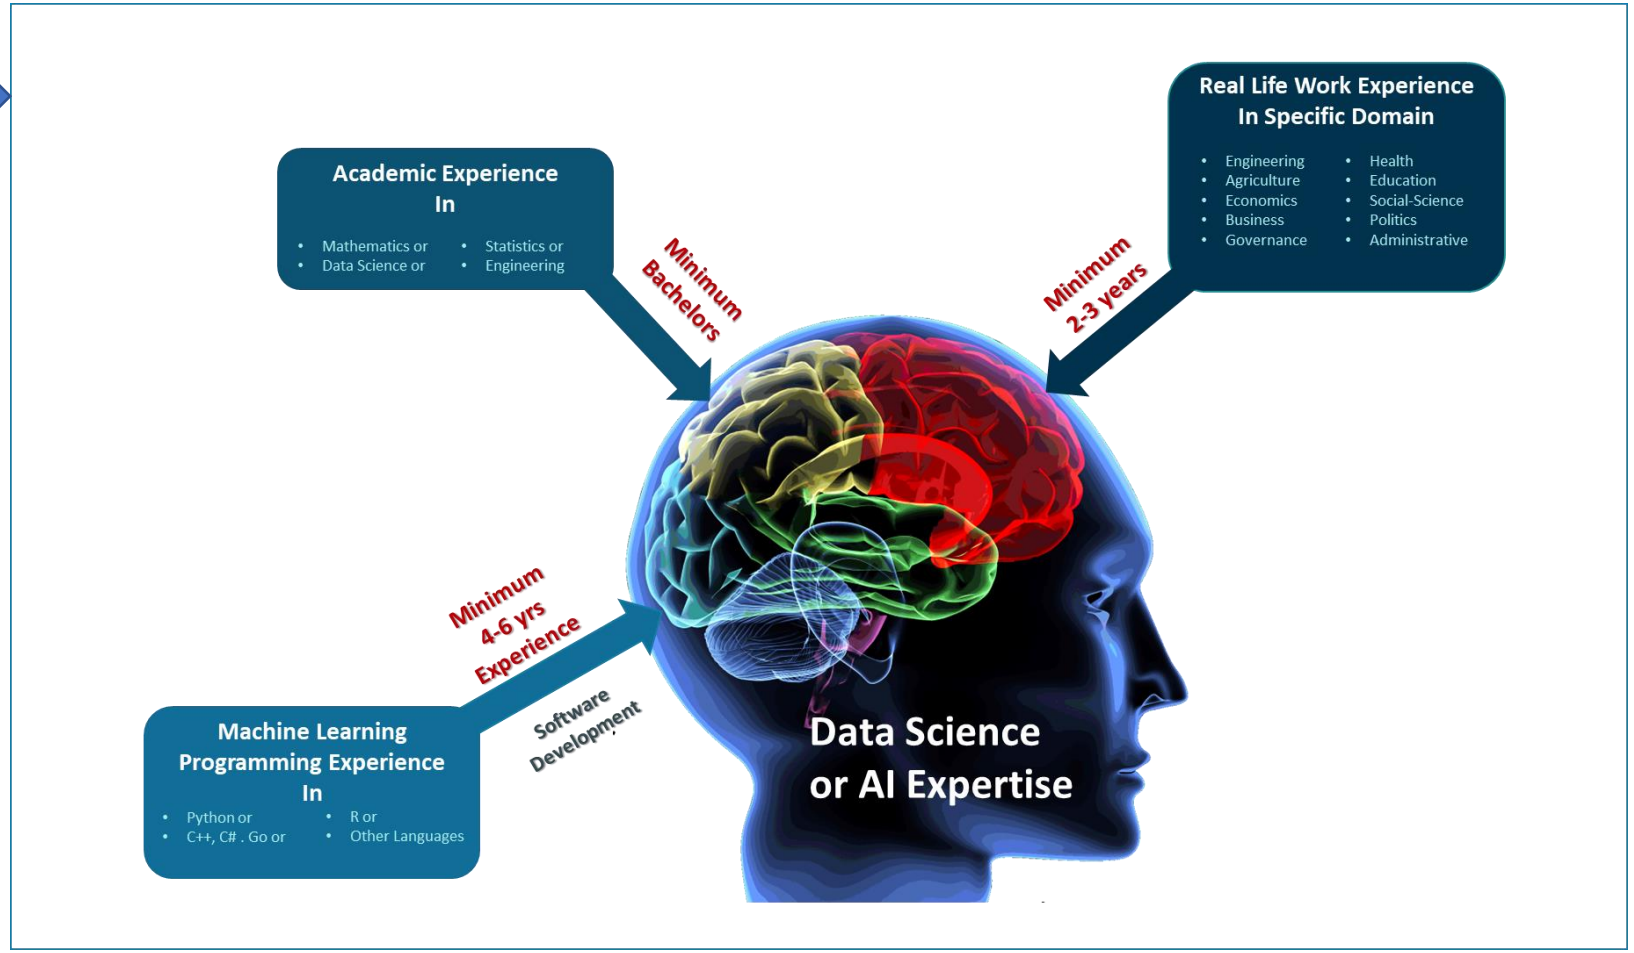
- Cloud Storage
- Cloud Computation
- High performance PC

Cumulative Training

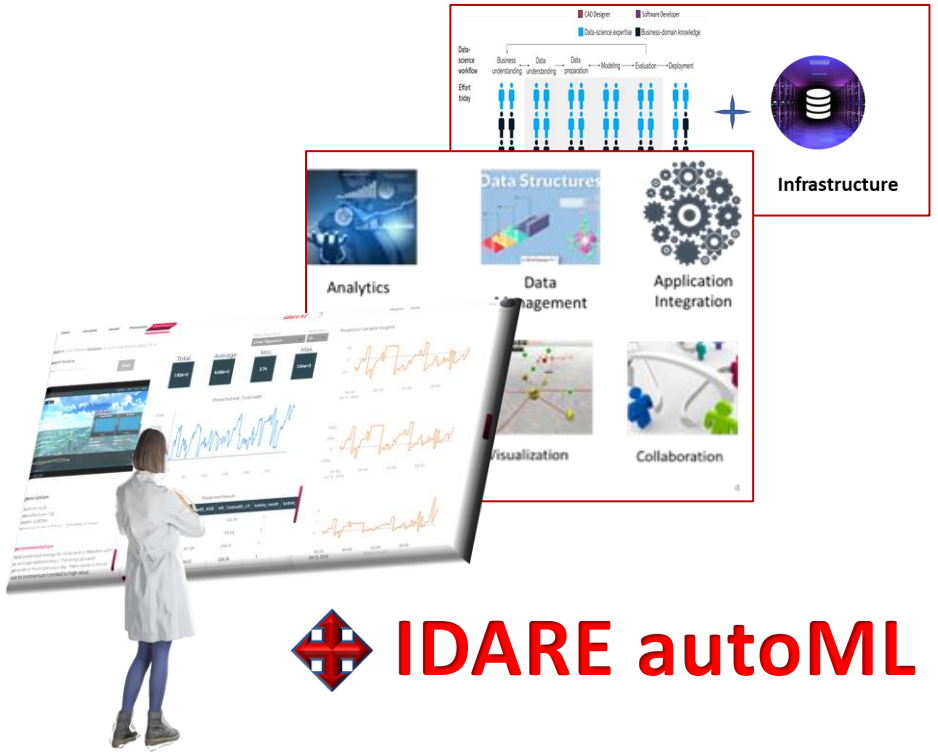
- Min. 6 Year

Investment

- $3m -$5m



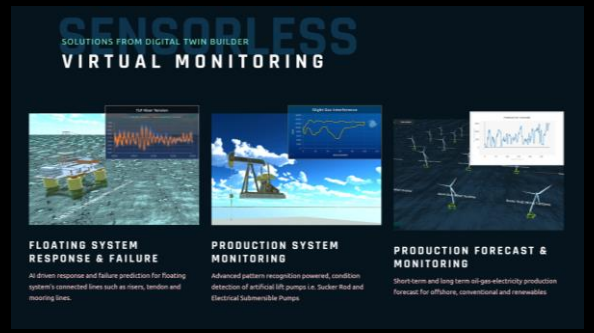
This course will develop your capacity to provide AI solution



IDARE autoML

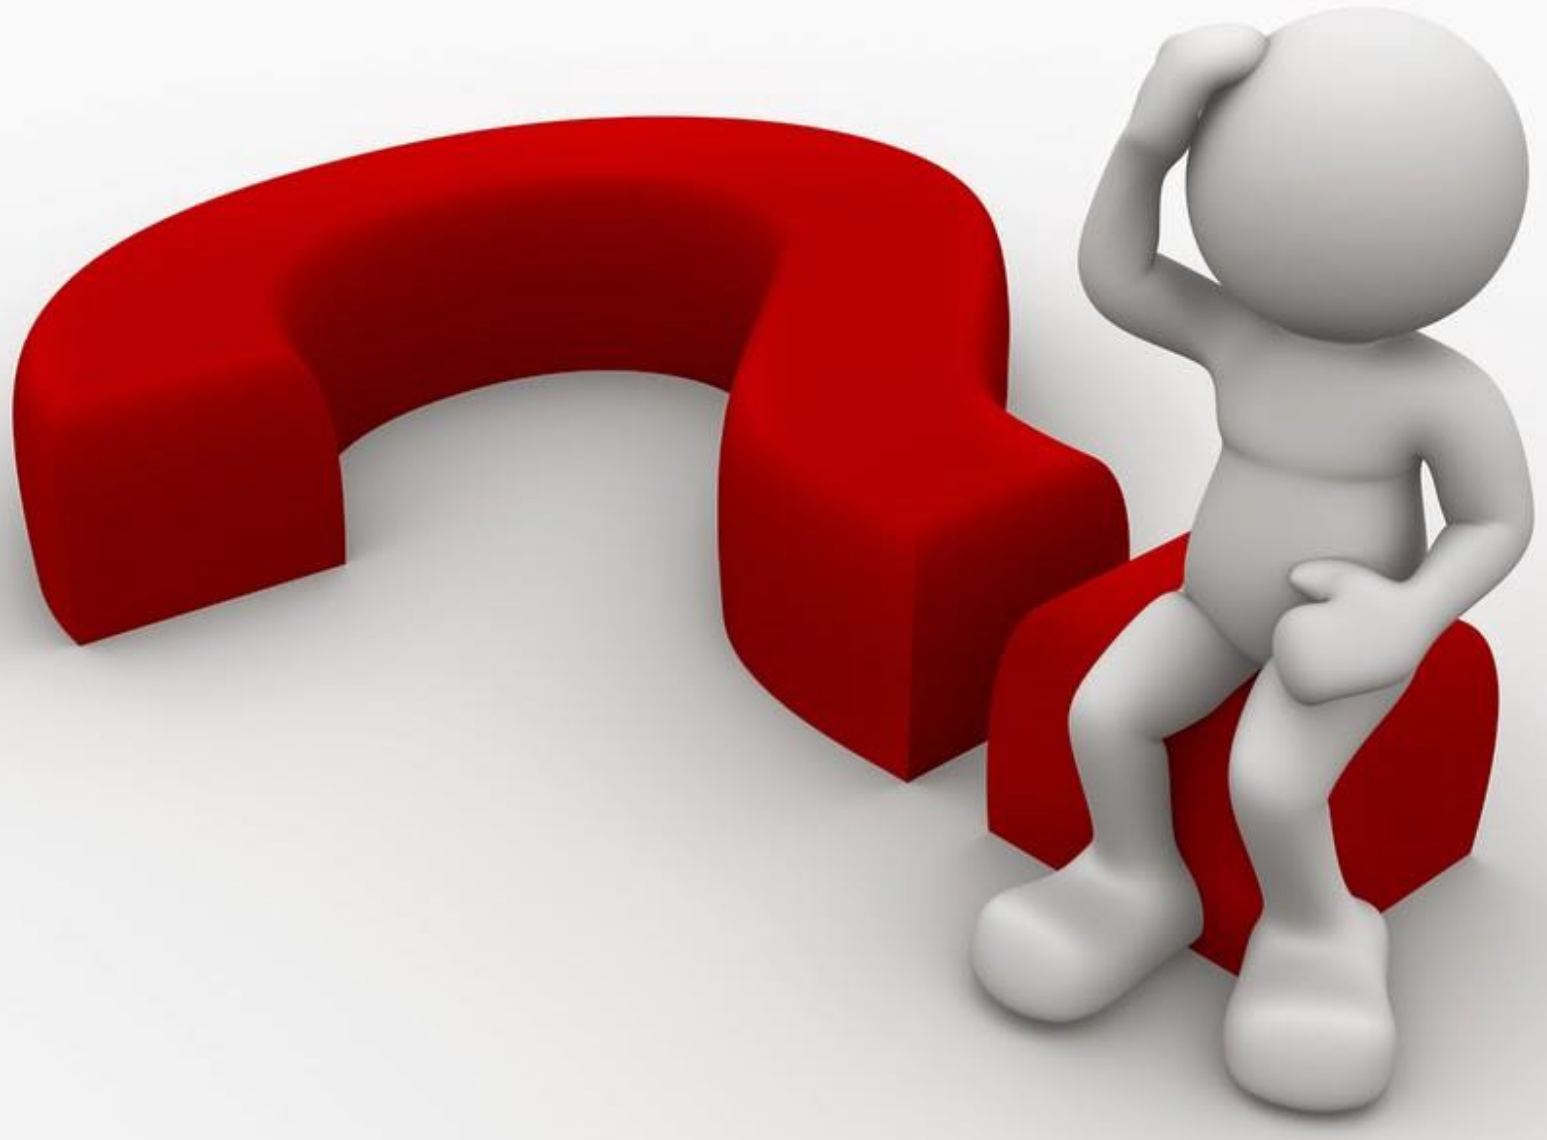
IDARE®

So what will you learn



2 Hours
AI for Business
- Role of AI in Business
- Opportunities
- AI Driven Decision Making in Different Sectors

4 Hours
AI Theories
- Decision making process using AI
- Understanding ML
- AI Success & Performance Indicators

14 Hours
Practical AI Experience
- AI Implementation for Production
- Practical Experience using Robotic AI Tool idareAI for Different Sectors


IDARE®
